Updated Table Query:

Query used to create this table
CREATE TABLE 'lookup' (location string, sensor string,'value' TEXT, date datetime)

Screenshots:

## Updated query to create table showing value is text (string):

Some verification that rest insert from step2 worked:

{"status":0,"message":"insert of 'test 12345' for location: '45056' and sensor 'web' accepted"}

getLookup (must include web address and good json response):

http://sammouka.aws.csi.miamioh.edu/final.php?method=getLookup&date=2021-11-16

{"result":[{"location":"45056","sensor":"1","value":"49.8","date":"2021-11-16 13:58:09"},{"location":"45056","sensor":"web","value":"test 12345","date":"2021-11-16 14:37:12"},{"location":"45056","sensor":"web","value":"test 12345","date":"2021-11-16 14:39:17"}]}
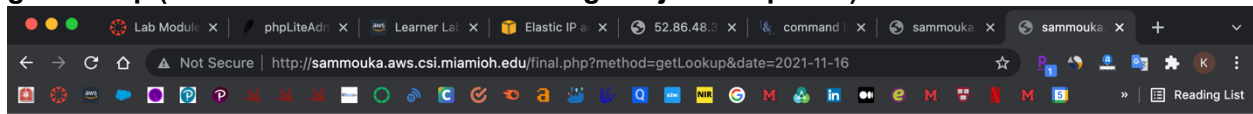

```
[ec2-user@ip-172-31-87-112 html]$ php final.class.php
